

## STOLEN BIKE

A blue, 21-speed, men's Electra Townie bicycle with an x-tracycle extension looking like the picture below was stolen from Parking Structure 2 (Behind Bessey Hall) between 1:00 pm and 4:40 pm on Wednesday, January 16, 2007.

The bicycle has, in addition, a bike computer, front and rear Planet Bike lights (front 2 power, rear, blinky red), and a Down-Low Glow light that (if it is still on the bike) will look something like a blue fluorescent tube attached to the street side of the front lower bike frame.

Please note that the extension might be removed, so that the bike can be reassembled to be just a regular Townie. Either the bike or the extension might be sold separately.

There are only 2 other similar bikes on campus (that I know of), and the others have a different model basic bike, so it's very easy to spot.

If anyone sees this bike, please contact the Michigan State University Police Department (517) 355-2222.

I would be really grateful to anyone who can help return this bike to me. It's my only form of transportation.

Many thanks,

Jessica DeForest

### Summary Info

Make and Model	Electra Townie
Serial Number	WN6J0997B
Color	Blue
Modifications etc.	Xtracycle Free Radical Bike Computer Planet Bike Headlight Planet Bike Rear Blinkie
